LWS SERIES

Two-way flow silent blower
250 air volume - 2000 air volume

Any multi-angle installation

Flat body without exposed electrical box

One piece

Can be installed at any angle

Match room type

Normal horizontal installation
(access door cannot face down)

Vertical wall mount

Triangular bracket
auxiliary installation

Installation dimension drawing

LW-QEJZ SERIES

Centralized full heat exchange group

Installation dimension drawing

 High temperature and high pressure resistance
100 °C boiling water measured without deformation

 Environmentally friendly, non-toxic and harmless
Exclusive research and development of PP polypropylene environmental protection material

 Efficient cold and heat recovery
The chip spacing is only 3mm, and the recovery rate is more than 70%

 The core supports water washing
Once the composite resin is used, it can be washed for life and replaced free of charge

Dimension Table

Model	Volume (m³/h)	Voltage (V)	Power (W)	Pressure (Pa)	Connection size (mm)	Dimensions (mm)
